

POL-W-03 QUALITY POLICY

Winson Group is a wholly Australian owned company which proudly markets and manufactures a highly effective range of Packaging Products / other consumable products and Labelling Products /Systems.

It is the company's intent to ensure products have the requisite quality to merit customer satisfaction throughout the effective life of the product and are supplied right first time, in a timely manner at a competitive price.

In an ever changing market our standards and performance are continually mobile in meeting current customer requirements and anticipation of increased needs.

Winson Group Pty Ltd incorporating Signet Pty Ltd and insignia Pty Ltd is committed to the Continuous Improvement process cycle in developing product systems and processes, to provide "Operational Excellence" values in meeting current and future criteria.

The company's long term success in the marketplace will result from total customer satisfaction by Management and staff monitoring and ensuring adherence to Quality Processes, Procedures and Principles.

The Quality Objectives are set for both product and company performance and is reviewed on a regular basis. This will assure that our customers expectations are anticipated, understood and recognised with methods of control effectively established, implemented, and maintained as per ISO 9001:2015

Customers will be provided with evidence of implementation of a quality system through a process of internal quality audits and by independent third party auditors in order to maintain our own high standards and accreditation to ISO 9001:2015

EXPLANATORY NOTES

"Quality through continuous improvement" is the foundation component in all of our processes
